

Trekking Easy

From Deià to Sóller 2h30' | 140m | 250m

Castelló i es Rost road
Former route that joined Deià and Sóller and communicated the old properties ("possessions"). Spectacular due to the views over Sóller and the coastal line. The terraces and the cobble-stone path that we find along the route are outstanding. The latter was restored by the Consell in 1969.

Around the Tossal puig 3h50' | 70m | 360m

This route crosses the "serra". We start from the middle of the "Serra de Tramuntana" with a totally mountaineer scenery, arriving at the plain "raiger". This route is ideal to realize how hard the life of the inhabitants of the Majorca Mountains ought to be. We shall see old buildings, silos, lime-kiln, wells, ditches... Half way we shall take advantage of the refuge of the Tossals Verds, first refuge created in Mallorca and will enjoy the typical food of the island.

La Trappe Monastery 3h | 80m | 430m

From the Coll de sa Gramola to Sant Elm
The Trappe Monastery holds great stories. The sea, cliffs, Cala Basset and its Tower surround it. The Dragonera island silhouette that together with the Trappist old monastery enclosure (1810) and the ingeniously use of the resources with terraces ("bancales"), fountains, mills.... make of the Trappe Monastery a place of great interest from a scenery and architectural point of view.

Trekking Middle

Sa Costera 4h | 670m | 220m

From Mirador de ses Barques to Cala Tuent
Former way of communication between Sóller and La Calobra. The route goes among millenary olive-groves through the old Balitx farms (possecció), fountains (water-springs) and watching towers.

Puig Tomir 5h | 548m | 548m

The summit that meets the sun.
We shall start up under a shed of vigorous helm-oaks vegetation. The effort made in the climbing will be compensated by having a wonderful view of the two highest summits of Majorca and scenery that reaches up to Formentor.

Alaró castle 6h | 525m | 945m

The Cabrit i Bassa castle just in the middle of the northern "serra". Here we find an excursion with double interest. A visit to the Alaró castle with views over the serra de Alfaba up to the Massanella Puig and the Mallorca plain.

Trekking Difficult

Barranc of Biniaraix and l'Ofre 6h | 995m | 995m

This is one of the classical excursions in Majorca. Former stone-paved road that joined Sóller and Lluc. Accompanied nearly all along the route by the l'Ofre torrent. This road penetrates into the mountains that surround the Sóller valley.

Camí de l'Arxiduc and es Teix 6h | 600m | 600m

El Arxiduc Lluís who was in love with Majorca. This route is one of the most spectacular itinerary in Majorca. It takes the name out of the Archduke Lluís Salvador of Austria who was a true admirer of Majorca and had this road constructed in order to greatly enjoy this part of the "serra de Tramuntana". Along this itinerary we will find many lookouts over the northern coast and over all the summits around Valldemossa.

El Massanella 5h | 773m | 773m

1365 meters high. It is the second highest peak of the Balearic islands. Since Puig Major, 1445 meters high, is occupied by a Military base, we shall consider the Massanella as the highest summit that a mountaineer can reach.

From this summit we have privileged views all over the "serra", Puig Major, Puig the ses Vignes, Puig de Tossals...

Here we can find an important nucleus of snow houses.

El Torrent de Pareis 5h | 10m | 630m

Declared Natural Monument in 2003. The Torrent de Pareis is a deep gap that goes through the "serra de Tramuntana". Walls of over 200 m. high and big blocks of stone are the scenery that this torrent offers us. This route is a must for these who love majestic and unique excursions that, at the same time, have a great biological and geological interest.

Trekking GR 221

The "Dry Stone" route. 5 dias | 2860m | 2610m

First GR in Mallorca. This route was designed to allow people go along the Serra de Tramuntana from one end to the other.

The name "Piedra Seca" is due to the many constructions along the Serra de Tramuntana that are made of stone, without mortar. Therefore all along the way we shall see spectacular terraces, huts and coal-mines, lost in the middle to the forest; lime-kiln. At high levels and many other constructions that are associated to the human being and to the environment where he lived and how he made good use of.

All these elements are combined with spectacular views; the highest peaks, the northern coast and small beaches, the whole "pla" of Mallorca and, of course, with all the scenery we shall go through, from luxuriant oak woods to dry barren mountains zones.

The Dry Stone "Piedra Seca" route was created by the Consell de Mallorca and was presented as an eight-stage route. At this point in time and due to problems in the passage of some paths and waiting for some refuges still under construction to be open up, Escull Aventura offers the following route in 7 stages.

Sant Telm – Estellencs –Esporles –Deia – Sóller – Tossals – Lluc – Pollença

There is no need to go along the whole route. At every starting and/or ending point of each stage, the route can be commenced or finished.

Also, we offer different types of lodgings to fit with the demand.

Therefore, we can go along the route staying at hotels or "agroturismos" located at the most spectacular places of Serra de Tramuntana and/or use the mountain refuges provided by the Consell de Mallorca.

Nordic Walking

Na Burguesa – Mirador de n'Alzamora 2h30' | 174m | 174m

Nice and changeable walk through the "serra de na Burguesa" very near Palma where we shall find good sights of the Mola des Clop, Galatzo and Plama bay, as well as the "garriga" vegetation.

Nordic walking is a way of walking that means, not only the action of the legs as in normal walking, but also, the upper part of the body, since we helped ourselves with specific sticks for this activity.

Bellver castle 1h

The Bellver castle was built by King Jaume II at the beginning of XIV century and it is very well located at 3 kms away from Palma. It is 140m high.

It is also the ideal place to enjoy wonderful sights over the Plama bay and of the whole city.

Palma bay 2h

Nice walk along the Palma Bay. With this walk we can benefit from the Nordic walking and shall enjoy from this coastal and urban walking.

Canyoning Easy

Torrent de Pareis* 4h30' | 1h | 10'

Declared like natural monument, we will find in this torrent, without no technical complication, one of the wonders of this island. Their great natural walls, almost do not let pass rays of the sun.

Note: He is advisable to be in good physical form.

Torrent Comafreda o des Guix* 4h | 30' | 30'

This torrent descends smoothly until it arrives at the point where it narrows considerably and at pool "gorg dels ferreters", always full of water, we shall finish this pleasant "torrenting" day.

Torrent de CoaNegra* 3h45' | 15' | 1h

This is the kind of torrent that contains all the characteristics of the Majorcan torrents, but at reduced scale; that is to say, perfect to get started in the barrances descending world.

*Note: He is advisable to be in good physical form.

Canyoning Middle

Torrent de Biniaraix* 5h | 1h15' | 45'

It Starts at l'Ofre Valley and runs down the very well known Biniaraix barranc. It slows down as it nears the Sóller valley. It can be said that this torrent is short but "fiery". It has a row of continuous jumps in the second half of the course that when there is plenty of water it turns into a quite technical torrent.

Torrent des Lli* 3h45' | 15' | 30'

This torrent starts up in the Teix massif. The torrent runs down with a number of cascades with a 54 meter-waterfall and it is a balcony onto the Valldemossa sea view.

Torrent de na Mora* 5h | 1h | 2h

It starts at the slope of Puig Major and ends up at the Mediterranean Sea. The sporting part is the last kilometer and a half. It is divided into two parts: One with puddles and small juts from where it is possible to be delighted with the spectacularity of the place. It is like paradise! The course of the second part is impressive and there we will find a couple of surprises, such as "sa fosqueta" or the exit to the sea that will leave nobody indifferent. This torrent has a natural population of "ferreter".

Torrent del Gorg dels Diners* 5h30' | 1h | 30'

This torrent, with the biggest unevenness of the torrents in Majorca, starts up at the northern face of Puig Major. These 700 m unevenness will be faced by the northern part of the island towards Cala Tuent.

*Requirements: Previous experience in descending canyons
Be familiar with the basic progression techniques
Good physical shape and be able to swim.

Canyoning Difficult

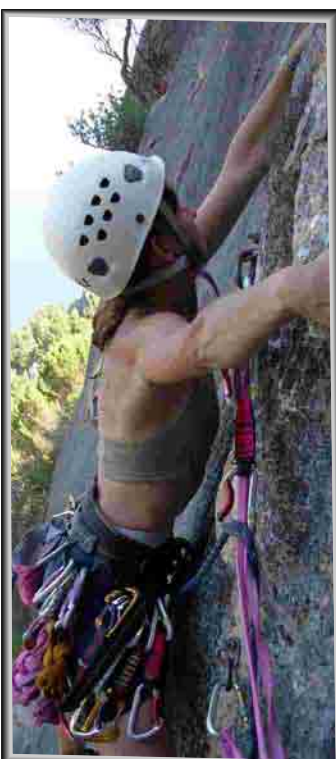

Gorg Blau – Sa Fosca* 6h45' | 15' | 1h30'

It is the "king" of the Majorcan torrents. Here we have water, length, unevenness and technic. It was explored for the first time in 1965. The walls are more than 300 m high and at some points the gap is only about 35 cms wide. The torrent starts up at the feet of the Puig Major massif, the Tossals massif and the Teix Serra, the nowadays named dam Gorg Blau, in the pla d'Almallutx and ends up in the Torrent de Pareis. Sa Fosca is a symphony to the beauty of nature where the musical notes are written with water and the pentagram is vertical. What can it be said of such exuberance? It is not a compliment: It is a reality. This karstic gorge is peculiar for its 400 m length of total darkness. The outstanding characteristic of this torrent is the fact that it is very long and there is water throughout the course, therefore, it is expected to lose corporal heat.

Torrent de Mortitx* 5h30' | 1h30' | 2h

It starts up at the foot of majestic Tomir but only in the last part of the course is where Mortitx descends. In the same way as in "na Mora", we will end up by being impressed by the cliffs of the Majorcan Brave Coast, giving a marine air of which we will not find any precedents in the peninsular barrances. Torrent Fondo is said to be funny due to the many jumps along its course. However it is a false appearance due to the many accidents occurred at Mortitx.

*Requirements: Previous experience in descending canyons
Be familiar with the basic progression techniques
Good physical shape and be able to swim.

Climbing and Orientation

Climbing baptism 5h | Grado IV i V

Addressed to those people that have no experience in the climbing sport and want to be initiated in it. It consists of an outing to a natural space with climbing tracks equipped to develop this activity.

It is a very enjoyable activity that aims at initiating in the climbing world and in a secure way those people that feel attraction for this world but do not know its inner parts. The price includes guide, use of the necessary material and the civil responsibility and accidents insurance. Minimum group of 4 people. For fewer people, please consult us.

Family climbing 4h | Ideal for children

Let's go climbing with our parents
Family excursion that consists of a very enjoyable activity in which all members of the family can participate.

First, we shall explain the basic rules of respect towards nature, then we shall walk towards the climbing paths and finally, we shall start the activity uncovering the climbing world.

Maximum ratio authorized 2 children per adult. Looking for clues.

Family orientation 5h | Ideal for children

This activity is planned to be carried out with the family. We shall describe some basic rules of respect to nature ad then a brief walking approach to a natural space where we shall carry out a game of clues though which we shall learn the basic rules on orientation. This is a very entertaining and enjoyable activity for the whole family.

Orientation session 3h | Upon request

Addressed to people that want to spend a day in an orientation game and at the same time get to know how to interpret a map, its legend and how to follow a route. It is an activity easily adaptable to the needs of the client. This kind of activity can be carried out with adults, youngsters or with the family: Upon request. The price includes the necessary material for this activity, compasses, maps, buoy, etc
Minimum group: 4 people. Fewer people, please consult us..

Initiation Courses

Sport climbing* Price:79€

Addressed to those people that want to get knowledge to practice climbing by themselves and with security. Get familiar with the material, its characteristics, how to use it and its maintenance. Command the specific terminology and specially to be able to communicate with the rope fellow. Understand a map of climbing paths. Duration: 2 days.

Canyoning I* Price:145€

Descending canyons is a mixture of alpine ascending, speleology, trekking, rappel and swimming. It is addressed to those people that want to be initiated in this sport. We shall learn about the technique, the material and the necessary equipment to descend canyoning with security. Duration: 4 days. Requiriments: Swimming knowledge.

Orientation* Price:79€

Addressed to people that want to know about different ways to be oriented, understand a map helped by the legend, follow a marked itinerary. Be able to read a map helped by the signs we have around us, be familiar with the compass as complementary tool. Go around helped by the compass. Duration: 2 days.

Mountaineering* Price:145€

Addressed to those people that want to organize excursions in a secure way. Know how to planned the route to follow having in mind the geography of the route, organize the food and the material-. Know the techniques to carry out a "vivac". Prevent risks Improvement courses. Duration: 4 days.

*Minimum: 4 people. Fewer people, please contact us.

Improvement Courses

Technique of ropes installation * Precio:98€

Addressed to those people with experience in descending canyons that want to enlarge their knowledge in the technique of ropes installing. Duration: 2 days.

Canyoning II * Precio:175€

Addressed to those people with experience in descending canyons that want to enlarge their knowledge of the material, how to install ropes, "self-stop", ascending with ropes with "Lucky Resources", hand-rail installation. Duration: 4 days.

Self-rescue in canyons * Precio:175€

Addressed to those people with experience in descending canyons and that want to enlarge their knowledge to know what to do in difficult situations. This course will give ourselves more security. Duration: 4 days.

Canyoning III * Precio:189€

Addressed to those people with experience in descending canyons than want to enlarge their knowledge in rescue of people in troubles. Minimum: 4 people. Fewer people please consult us. Duration: 4 days.

*Minimum: 4 people. Fewer people please consult us.
Requirements: Previous experience in descending canyons
